

# Autosys Jil Manual

Mar 30, 1998 At the lowest level is a job, which is a collection of commands written in AutoSys' Job Information Language (JIL). JIL defines when, where, <http://windowsitpro.com/windows/autosys>

AutoSys is used for defining, scheduling and monitoring jobs. These jobs can be a UNIX script, java program or any other program which can be invoked from shell.

<http://viralpatel.net/blogs/tag/autosys/>

As per the Autosys manual, the following permission options can be configured in the JIL file: gx,ge,wx,we,mx,me Can someone please explain what each of these options

<http://stackoverflow.com/questions/7255875/autosys-permission-options>

Where can I find all the command list for Autosys JIL. What is the official site where I can get the complete list of Autosys commands with examples ?

<http://stackoverflow.com/questions/13912694/autosys-command-list-and-job-scheduling-every-half-an-hour>

The following commands all require the use of the Autosys cmd prompt. To input a list of jobs from a text file into the Autosys db: jil < Aleks.jil
